Study plan

I got admission to York, one of the best universities in Canada and in the world. A degree received from York is well recognized and respected by universities in Iran. Moreover, variety of useful graduate courses offered, advanced facilities and research opportunities in York, which are not available in Iranian universities, induced me to pursue a master degree in Canada. My future goal is working as a professor in Sharif university which is the best engineering university in Iran.

I would be really grateful if you kindly consider my request at earliest possible, and issue a study permit for me to be able to start my studies in time at September in York.

|----------------------|--------|---|
| Reading Skills L | _evel | Your Performance |
| Reading | High | Test takers who receive a score at the HIGH level, as you did, typically understand academic texts in English that require a wide range of reading abilities regardless of the difficulty of the texts. Test takers who score at the HIGH level, typically • have a very good command of academic vocabulary and grammatical structure; • can understand and connect information, make appropriate inferences, and synthesize ideas, even when the text is conceptually dense and the language is complex; • can recognize the expository organization of a text and the role that specific information serves within the larger text, even when the text is conceptually dense; and • can abstract major ideas from a text, even when the text is conceptually dense and contains complex language. |
| Listening Skills L | evel | Your Performance |
| Listening I | High | Test takers who receive a score at the HIGH level, as you did, typically understand conversations and lectures in English that present a wide range of listening demands. These demands can include difficult vocabulary (uncommon terms, or colloquial or figurative language), complex grammatical structures, abstract or complex ideas, and/or making sense of unexpected or seemingly contradictory information. When listening to lectures and conversations like these, test takers at the HIGH level typically can understand main ideas and important details, whether they are stated or implied; distinguish more important ideas from less important ones; understand how information is being used (for example, to provide evidence for a claim or describe a step in a complex process); recognize how pieces of information are connected (for example, in a cause-and-effect relationship); understand many different ways that speakers use language for purposes other than to give information (for example, to emphasize a point, express agreement or disagreement, or convey intentions indirectly); and |

My parents are separated from each other and I'm living with my mother and little sister. I'm the only man of the family and they are emotionally dependent on me (specially my mother). I think it's my duty to help them in the time they need me.

I have belongings like my car in Iran. Also, as my mother said I will inherit half of the house. I attached these deeds at the end of this file.
